

15 years of impact. Secure our future now.

Standing together for true participation and social cohesion!

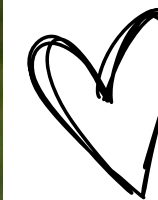

To ensure opportunities exist in the long term, kein Abseits! needs a stable foundation!

For 15 years, kein Abseits! e.V. has been enabling dependable encounters and creating safe spaces for well-being and personal development for children, youth, and families. For people who otherwise have less access to support, guidance, and opportunities.

Often insecure project funding from public authorities is not enough to finance our work.

We invite companies, foundations, and private individuals to invest with us in a solution that works – for social cohesion and true participation!

kein Abseits! creates real change in the lives of many people. For 15 years. Day after day.

"For me, this work at kein Abseits! is very important because it allows me to help children and have a positive influence on their development. It makes me happy to see how they grow, gain self-confidence, and learn new skills, and that I can be part of this beautiful process."

– Mallak, youth volunteer at the neighborhood meetup ReLAX, who used to be a child in our programs herself

"I came to Germany with hope, and at kein Abseits! I found a small light. A place where I can develop myself, work, and help other people. That's why it feels less like an association to me and more like a piece of home. And the thought of losing this reminds me of what I have already lost once before in Syria."

– Ahmad, educator at kein Abseits!

"We actually come to QuäX every day because we've found new friends here, everyone on the team is so sweet, and we can play here. At home, we would just be gaming or alone on our phones."

– Max & Levin (10 years old), visitors of our children and youth club QuäX

"Thanks to the mentoring program, I found a surrogate grandma. Brigitte shows me Berlin, helps me with my homework, and is simply there for me. My mom often doesn't have time because she has to take care of my younger siblings."

– Fatima, mentee of Brigitte

No child should end up on the sidelines of society. We step in where the gaps are largest..

=====

Our Vision

Our vision is an equitable society in which everyone — regardless of their (social) background — can pursue a successful and happy educational and life path within the framework of sustainable development.

1:1-Mentoring

We connect children with positive role models and support them in opening up new perspectives for themselves and unfolding their potential.
In 1:1 settings, they explore Berlin with their mentors and grow beyond themselves.

Our approach

Sports & Experiential Education

Our group sports and play activities are not only fun but also have an integrative effect and build vital skills. Children gain physical fitness and self-confidence while making new friends.

Youth Engagement

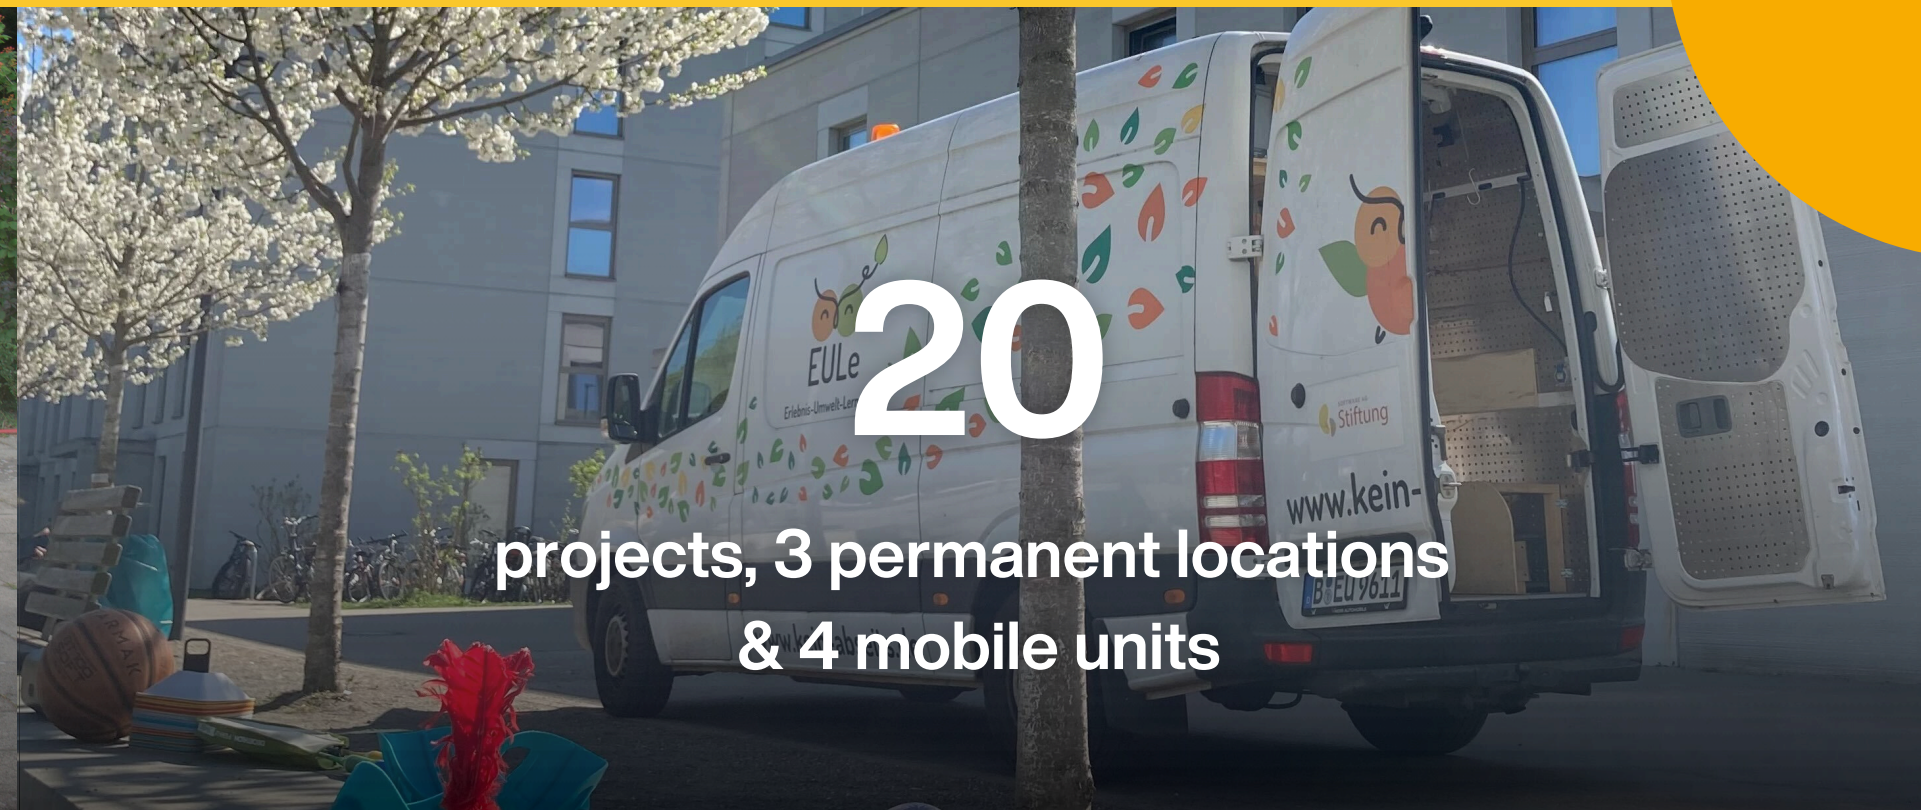

We empower young people and guide them through their first experiences with volunteer work. Through this, they become role models themselves and get to know themselves and their strengths better.

Learn more about our projects.

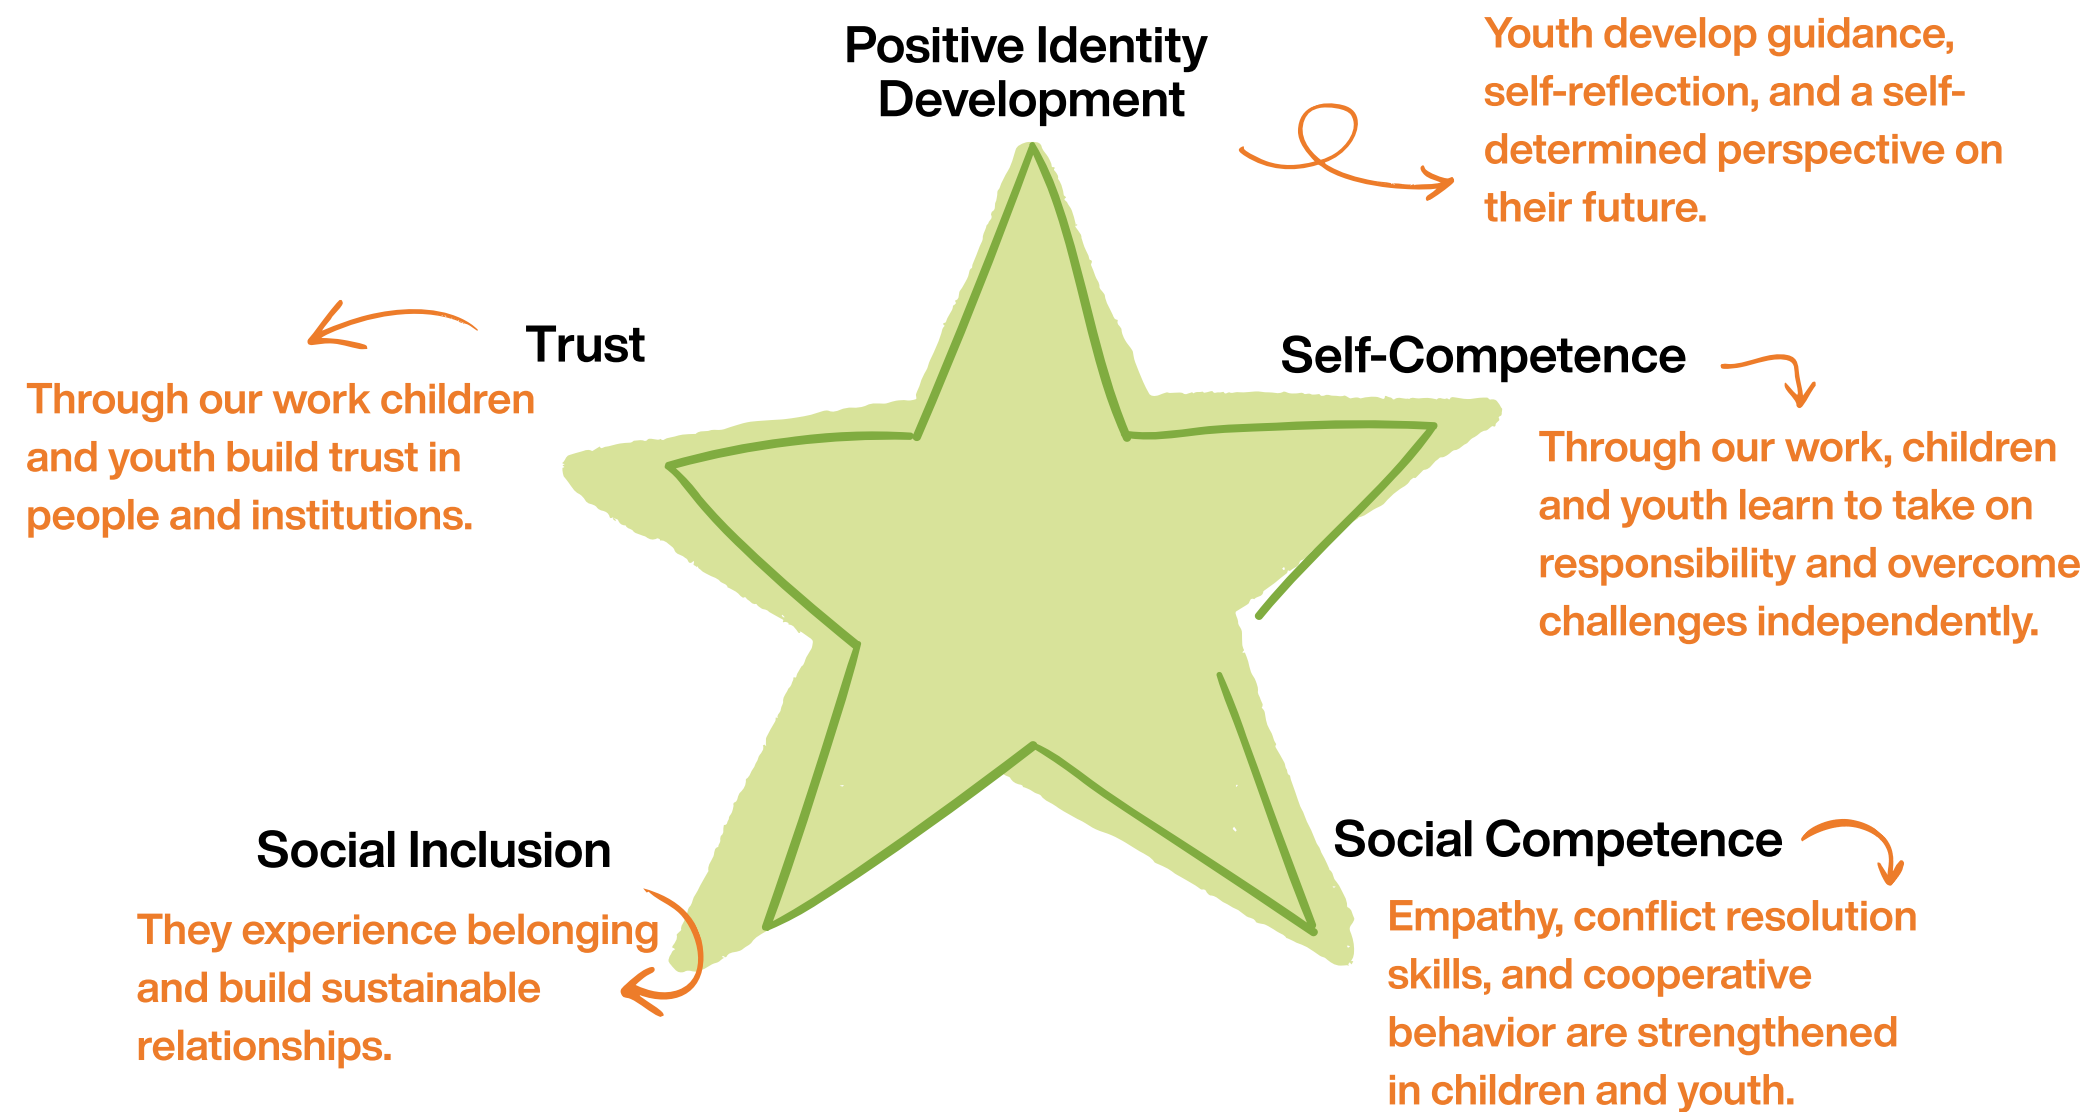

kein-abseits.de/projekte

Our activities are diverse and built upon reliable, long-term support formats.

Our impact is measurable, proven, and empowers people sustainably.

Our work creates lasting development — scientifically sound, practically effective and widely recognized.

Read our Impact Report

We are publicly recognized

- **Federal Cross of Merit** (Bundesverdienstmedaille)
- **Capital City Prize for Integration & Tolerance** (Hauptstadtpreis für Integration & Toleranz)
- **Berlin Prevention Prize** (Berliner Präventionspreis)
- **Award winner of the Federal Agency for Civic Education** (Bundeszentrale für Politische Bildung)
- **Co-founder & (board) work in various professional associations**
- **and many more.**

We are short of €200,000 annually to fund the baseline of kein Abseits!

(Public) project funding is not sufficient for our work.

Why? Administrative and infrastructure costs are either not covered at all or only minimally covered by public funding.

Public funding is frequently insecure or unpredictable. In the event of budget cuts, we must bridge the funding gap to keep operations running.

Therefore, we require flexible funds to ensure stability and to be able to react to changes.

Now is the deciding moment whether kein Abseits! can continue in 2027.

Without additional flexible funds, we face the very real threat of:

Insolvency at the beginning of 2027 due to depleted financial reserves.

Termination of our projects.

Closure of our locations.

Layoff of 30 staff members.

Less support. Less participation. Fewer real future prospects for children and youth.

Your support =
Huge leverage effect!

10-20% in unrestricted funds unlocks up to €1.3 million in additional opportunities per year for children, youth, and families.

To manage the disadvantages of public funding, we need this financial flexibility for sustainable and future-oriented work.

Together, let's invest in a solution that works!

Goal: Sustainable securing of our services from 2027 onwards

We are looking for strong, long-term partners to shape the future with us.

➤ **€200.000** ➤

annually for a stable foundation for kein Abseits! e.V.*

*By **July 31, 2026**, we need €100,000 to be able to continue in 2027 (e.g., 10 partners contributing €10,000 each or 20 partners contributing €5,000 each).

Strong partnerships that make a difference. For everyone involved.

Companies

Credible local ESG/CSR
contribution & high employee
identification

Foundations & Private Individuals

direct, transparent impact for
children and youth.

Partnership instead of an anonymous donation.

Visible results instead of abstract funding
through regular impact updates.

Your support creates stability, reliability,
and perspectives.

Thanks to you, approx. 850 children and
youth receive support every year.

You enable many empowering encounters
annually and 10,500 hours of commitment from
youth and adults.

Become a Future Partner now and create true participation for children and youth.

To the Future Campaign:

Let's start the conversation.

We look forward to a personal exchange and to finding out together how a strong partnership can look for you.
